# Ronco dei Tassi®

*One Estate Three Labels*

## RONCO DEI TASSI

The name *Ronco* in Friulian dialect means “*hillside, terraced vineyard*”. The terraces are common in Collio DOC and are laboriously constructed to optimize sun exposure and drainage. RONCO DEI TASSI is named after the badgers or *tassi* living in the forest who frequently visit the adjacent vineyards. The wines produced in this unique environment by the expert of local varietals, Fabio Coser, are as follows:

## CLIC

Enrico Coser created CLIC to introduce the wines of Friuli to a new generation of wine enthusiasts. The name CLIC means “*a small glass of wine shared with friends*” in the Friulian dialect, which perfectly identifies the purpose for which these wines were created. These are great value, palatable wines, bottled with a screw cap and modern packaging.
