

# IL ROSÉ DI CASANOVA

LA SPINETTA

La Spinetta's organically farmed Tuscan Estate lies in the village of Terricciola between Pisa and Volterra. From this majestic vineyard,

La Spinetta produces a very Provencal style of dry Rosé. All fruit is hand harvested. Skin contact time is very short, only 1 hour, to maintain elegance. The juice is then allowed to ferment naturally with native/wild yeasts so that its true terroir can show. The wine is then rested on lees for 3 months to add texture and depth. The result is truly wonderful.

*"Owner and winemaker Giorgio Rivetti has been called "one of the best and most innovative winemakers in Piedmont today," by Wine Spectator. His Tuscan "Il Rosé" combines Sangiovese and Prugnolo Gentile delivers high-altitude verve, freshness, and excellent acidity underscored by tangy raspberry, red currants, and cassis notes—this demands a plate of antipasti." – Vivino*

*"From year to year, the Il Rosé di Casanova continues to impress" – Vinous, Eric Guido*

**50% Sangiovese and 50% Prugnolo Gentile 12.5% alcohol**

**2025 VINTAGE REPORT:** Another excellent year! The 2025 vintage in Tuscany, including the western region near Terricciola, shaped up to be an excellent, high-quality year characterized by lower yields and great, concentrated wines. Despite a cool, rainy spring and a July heatwave, the overall climate favored healthy grapes, resulting in wines with vibrant, structured profiles, and good aging potential.

2025 now also shows completion of Certified Organic certification. The back label now denotes: **"Made from Organic Grapes"**

*"The palate bursts with refreshing, crunchy red fruit. This particular vintage is absolutely joyful and one to buy by the case(s) to last you all summer long. Vibrant flavors of freshly picked strawberry, tart cherry, watermelon rind, pomegranate, lime, and white peach. Crisp acidity is the hallmark that gives the wine its zesty, refreshing finish. Organic farming provides a pure expression of Tuscany's most popular grape, Sangiovese. You can officially add Tuscany to your list of wine regions that produce stunning Rosé. It even gets better with age!"*
